

November 8, 2019

To: Scott Kormeier

Dear Sir,

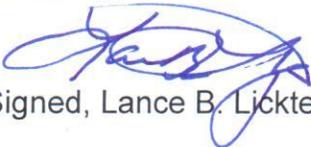

On the night of Sunday September 1, 2019, a number of participants attending the LDRS 38 event at the Argonia Rocket Pasture (the launch facility maintained by the KLOUDBusters, Inc.) witnessed a hostile confrontation between Scott Kormeier and Tim Lehr. Witnesses confirm that this contact was initiated by Mr. Kormeier by him entering the encampment of Mr. Lehr and Wildman Rocketry. There were loud verbal exchanges which caused an uncomfortable and awkward situation for those present. Witnesses included members of the KLOUDBusters Board of Directors.

Mr. Kormeier, you have been warned in the past that the KLOUDBusters would not tolerate these hostile confrontations between yourself and Mr. Lehr at our launch events and that the instigating party would be banned from attending events at the Rocket Pasture.

This letter is to inform you that the KLOUDBusters Board of Directors has voted to ban your presence from the Argonia Rocket Pasture due to these actions. This ban is in effect immediately and will not expire. We feel adequate warning had been given after past transgressions, but since you did not adhere to our stated conditions, this ban is necessary to keep peace and to maintain civil decorum at our events at the Rocket Pasture.

Please be aware that this is personal and does not apply to Loki Research or Loki Research products. You may not attend our events, but the retailers who sell your products are not limited in any way from continuing to do so.

Sincerely,

Signed, Lance B. Lickteig on behalf of the KLOUDBusters Board of Directors,

Bob Brown  
Prefect

Dave Pomeroy
